# Features

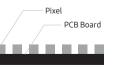

From a best-in-class picture processing engine to luxurious design innovation, The Wall's core technologies come together to generate an experience unlike any other.

## Perfectly deep black

Black is the essence of detail. The Wall embodies the essence of black. The fusion of an exceptionally black base with specialized Black Seal Technology, delivers deep black levels for intense contrast and immaculate detail.

True detail comes to life through true colors. The Wall's inherent color qualities, with superior color purity, produce vibrant and natural colors for an awe-inspiring visual experience, bringing details to life like never before.

## Pristine, precise colors

Broader Wavelength Lower Color Purity

# Pin-sharp clarity in every scene

Boasting the industry's best picture quality engine, The Wall utilizes advanced HDR picture refinement technologies – LED HDR, HDR10+ support and Multi-link HDR – rendering op-timum peak brightness and contrast in every single scene for precise, true-to-life imagery.

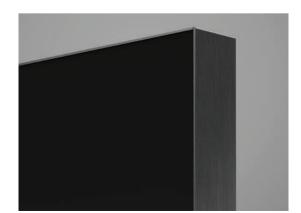

#### **Quantum HDR**

Quantum HDR optimizes brightness and contrast ratio scene-by-scene and supports HDR-quality content up to 8K.

# Infinity design

Experience infinity with a slim, bezel-less design that allows The Wall to seamlessly blend into its surroundings. It's a modern look, eliminating anything that is unnecessary. In a place where you have ultimate control, see only what you want to see.
